## **Success Profiles**

by Chuck Muldoon

**Paul Korzeniowski has been an entrepreneur and business owner for 27 years and founded American Bill Money in 2003. I interviewed Mr. Korzeniowski via email.**

**CM:** *So what first made you decide to start your own business?*

**PK:** I had a newspaper route from age 8 to 14. I learned to really enjoy doing the work, collecting the dues, and paying myself. So when I turned 18 I turned my new learned skill of cleaning cars into my own auto detailing business and pursued my dreams of being self-employed. I ran this business till I was 22.

**CM:** *What made you start American Bill Money?*

**PK:** When I was 38, a successful advertising business I had started 15 years prior was severely affected by new FCC rules; I've always been active in network marketing in addition to my businesses and wanted to remain self-employed. So I created ABM in my spare time and launched it Nov. 11th 2003, and it has been the most rewarding business in my life.

**CM:** *Who would you say were your most important role models and why?*

**PK:** The local business owners and professionals whom I admired, respected, and learned from all of my adult life.

**CM:** *Why do so many people want to get involved with ABM?*

**PK:** The opportunity is simple to understand and affordable to get started with, and has a very profitable earning potential.

**CM:** *What's the most important ingredient in the recipe for success?*

**PK:** Commitment.

**CM:** *What kind of advice would you give those out there who want to start their own business?*

**PK:** Learn all you can about business, especially marketing it. Plan for the long term. Don't let doubt, fear & worry cripple you. Practice & persistence makes perfection.

**CM:** *What sort of special skills or education does someone need to be successful with ABM?*

**PK:** A strong desire to succeed. A willingness to do whatever it takes. A strong work ethic and a winning attitude.
